Spring is rapidly moving towards summer. The state has begun gradually reopening with Phase 1 in place. Restaurants and other commercial establishments are slowly beginning to come back to life with limitations on service and capacity. The marina has reopened for residents to enjoy the Lake once again. Gradually we can enjoy all of the amenities that make life at the Lake wonderful.

While it is good to have more access, we must still keep in mind the deadly coronavirus is still running rampant. Every day brings news of more cases and more deaths. It is important that we do not let our guard down. Please continue to follow CDC and the State recommendations for social distancing and wearing masks out of respect for those you encounter while you are out and about. Many businesses require or strongly suggest wearing masks when you are in their establishment. This is to protect their employees and their customers, please do your part by complying.

As we return to our lives our country and city have been rocked by turmoil. This is about human dignity. It is about the right of everyone to enjoy the same freedom to go about their daily life without fear. Whatever your background, your politics, your religion, your ethnicity, the basis of our democracy is the same today as it was 224 years ago. "We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness." We must uphold those rights and stand up and speak up when anyone challenges them.
