

In keeping with the Declarations for the Association, mailboxes are to be uniform in design and color. Mailboxes should be black and must meet the US Postal specifications. The Declarations state that all mailboxes shall have a **natural wood** "Trotter Ridge" post.

Many residents have had difficulty finding the "Trotter Ridge" post from the previous supplier. The Board of Directors has found a comparable replacement. It is a pine mailbox post that may be purchased currently at Home Depot. The item description and information may be found below.
